Product Bulletin

Vanishing Oil

Description

Vanishing oil is designed to provide some corrosion protection & lubrication for industrial processes while having a high rate of evaporation that will leave the application with little or no residue. In this manner the product seems to "vanish" after application.

Typical Characteristics

Property	Typical Value
Viscosity, SUS @ 100°F	32
Flash Point, °F, COC	120 to 130
Density, lbs/gal	6.54
