Product Bulletin

Vanishing Oil 6370

Description

Vanishing Oil 6370 is designed to provide improved lubrication over regular vanishing oil for industrial processes while having a high rate of evaporation that will leave the application with minimal residue. In this manner the product seems to "vanish" after application.

Typical Characteristics

Property	Typical Value
Viscosity, SUS @ 100°F	32
Flash Point, °F, COC	120
Density, lbs/gal	6.54
