Vulclean SK-4257

Ultrasonic Cleaner

Description

Vulclean SK-4257 is a liquid alkali and high detergent combination, designed for the removal of soil, oils and some oxides designed for ultrasonic precision cleaning. This specialty cleaner can be used on all types of metals. **Vulclean SK-4257** may also be used in soak tank applications. Because of its detergents, wetting and water conditioners, parts cleaned in **Vulclean SK-4257** are fast drying and will not water spot. **Vulclean SK-4257** is especially adaptable to automatic liquid dispensers and will lend itself to accurate conductivity control measurement.

Performance Benefits

- Effective on ferrous and non-ferrous metals
- Will not stain most aluminum alloys
- State-of-the-art surfactant technology quickly removes oils and prevents soil redeposition
- Good short term rust protection.

Recommended Applications

Soil	Usage	Operating Temperature
Light Soils	3% to 6%	Ambient to 160°F
Medium Soils	6% to 9%	Ambient to 160°F
Heavy Soils	9% to 12.5%	Ambient to 160°F
Extra Heavy Soils	12.5% to 15%	Ambient to 160°F

Typical Characteristics

Appearance	Green Liquid
Specific Gravity @72F	1.00 to 1.05
Solubility	Water Soluble
