Vulclean SK-4785

Heavy Duty Soak Cleaner

Description

Vulclean SK-4785 is a heavy duty, liquid alkaline cleaning compound designed for the removal of heavy oils, greases and carbonized soils in soak tank applications. **Vulclean SK-4785** will provide exceptionally long bath life when used as an immersion soak tank cleaner. This product contains a blend of surfactants that will provide fast removal of soils and free rinsing.

Performance Benefits

- Effective on heavy drawing compounds and oils
- State-of-the-art surfactant technology quickly removes oils and prevents soil redeposition
- Good short term rust protection.
- Special chelating agents prevent fouling of heat exchangers.

Recommended Applications

Soil	Usage	Operating Temperature
Light Soils	3% to 6%	140°F to 200°F
Medium Soils	6% to 9%	140°F to 200°F
Heavy Soils	9% to 12.5%	170°F to 200°F
Extra Heavy Soils	12.5% to 15%	190°F to 210°F

Typical Characteristics

Appearance	Brown Liquid
Specific Gravity @72F	1.12 to 1.5
Solubility	Water Soluble
Total Alkalinity (% NaOH)	36% to 40%
