Vulclean SP-1112L

Alkaline Spray Cleaner

Description

Vulclean SP-1112L is a highly concentrated potassium based alkaline cleaner and is an excellent product for cleaning parts prior to phosphating. **Vulclean SP-1112L** should be used in medium and heavy soil load applications requiring an extended bath.

Performance Benefits

- Leaves parts clean with no residues
- Extended bath life for heavy soil loads
- Effective in both spray and dip tank applications
- Use on ferrous metals only

Recommended Applications

Vulclean SP-1112L should be used in spray washer applications at a rate of 1% to 5% by volume, depending on the type of soil to be removed, at any temperature ranging from 130°F to 160°F.

In dip tank applications **Vulclean SP-1112L** should be utilized at 2% to 10% by volume.

Typical Characteristics

Appearance	Clear liquid
Specific Gravity @72F	1.335 to 1.350
pH (2% solution)	12.0 to 13.8
