Vulclean SP-1070LF

Heavy Duty Alkaline Spray Cleaner

Description

Vulclean SP-1070LF is an alkaline, liquid compound, designed for the removal of shop soils, lubes, oils coolants and chips from ferrous and non-ferrous surfaces. **Vulclean SP-1070LF** contains anti-oxidants that provide excellent anti pitting and corrosion protection. It does not contain nitrites and phosphorous compound, is low foaming in any type of washer and provides complete oil separation permitting more economical waste treatment if required.

Performance Benefits

- Safe on aluminum and aluminum alloys
- Excellent in-process and medium term indoor rust protection
- Effective on heavy drawing compounds and oils
- Oil rejecting formula provides an extended bath life
- Nitrite and Phosphate free formulation

Recommended Applications

Vulclean SP-1070LF should be used in spray washer applications at a rate of 2% to 6% by volume at temperature ranges from ambient to 185 °F for ferrous and ambient to 140 °F for non-ferrous.

Typical Characteristics

Appearance	Clear amber liquid
Specific Gravity @72F	1.2 to 1.5
K2O	7% minimum
