## Product Bulletin

# Vuldra 2320

## Synthetic Punching Fluid

### Description

**Vuldra 2320** is a synthetic nibbling, shearing, and punching fluid. This fluid is free of oils, nitrites, and conventional extreme pressure additives such as chlorine and sulfur. **Vuldra 2320** forms a high shear strength film on parts for nibbling thin sheets and heavy plates as well as punching and shearing operations.

**Vuldra 2320** can be used on various alloys including carbon and stainless steels, copper, brass and aluminum. Consult your sales representative for questions regarding compatibility with other metals.

### Performance Benefits

- Exceptional lubricity to improve tool life.
- Easily removed residues eliminates need to degrease parts
- Synthetic ingredients eliminate irritating mists and welding smoke
- Brush or spray on parts

### Recommended Applications

**Vuldra 2320** is designed to be used at 10% in water.

### Typical Properties

	<b>Vuldra 2320</b>
Appearance, Concentrate	Clear blue liquid
Appearance, Diluted Material	Opaque blue liquid
Specific Gravity @70F	1.061
pH (10% in water)	8.5 to 9.0
