## Product Bulletin

### **Vuldra 2575-C** Heavy-duty Drawing Oil

#### **Description**

**Vuldra 2575-C** is a high viscosity, heavy duty drawing oil intended for both ferrous and non-ferrous metals. This unique formulation of chlorinated additives and high viscosity synthetic base oils make **Vuldra 2575-C** ideal for drawing and forming applications.

#### **Performance Benefits**

- High levels of extreme pressure additives extending die life and reducing scoring and galling
- Easily cleaned of parts. Ask your Coolant Control Rep for the Coolant Control Cleaners best suited for the job.
- Excellent film strength properties from the synthetic base oils

#### **Recommended Applications**

Drawing and stamping of ferrous and non-ferrous metals

#### **Typical Properties**

	<b>Vuldra 2575-C</b>
Appearance, Concentrate	Clear yellow liquid
Odor	Mild
Viscosity, SUS @ 100°F	2700 to 3200
Chlorine	Yes
Sulfur	No
Active Sulfur	No
