Product Bulletin

Vuldra FT-727

Body n White

Description

Vuldra FT-727 is a chlorine free compound formulated to perform a wide range of drawing and stamping operations. **Vuldra FT-727's** unique formulation does not contain chlorine and is easily removed with alkaline cleaners where clean surfaces are required in subsequent operations such as welding, coating, and plating.

Performance Benefits

- Automotive Approved (Body – N – White)
- Imparts In Process Corrosion Protection
- Chlorine Free
- Non-Staining
- Easily Removed
- Imparts In process Corrosion Protection

Recommended Applications

Depending on the substrate and severity of the application **Vuldra FT-727** can be use neat in severe operations such as extruding, or diluted 20:1 with water to form a stable emulsion for light stamping.

Typical Properties

	Vuldra FT-727
Appearance, Concentrate	White Opaque Liquid
Specific Gravity @ 25C	0.95 to 1.1
pH neat	8.0 to 9.0
Chlorine	No
